Main Campus of Touro College
27-33 West 23rd Street, New York, NY 10010

The Touro College and University System is a Jewish-sponsored independent institution of higher and professional education serving the larger American community. Approximately 19,000 students are currently enrolled in its various schools and divisions. Touro College is accredited by the Middle States Commission on Higher Education, 3624 Market Street, Philadelphia, PA 19104, phone number (267) 284-5000. The Middle States Commission on Higher Education is an institutional accrediting agency recognized by the United States Secretary of Education and the Council for Higher Education Accreditation.

All Touro branches in California and Nevada are accredited by the Accrediting Commission, for Senior Colleges and Universities of the Western Association of Schools and Colleges, 985 Atlantic Avenue, #100 Alameda, CA 94501, phone number (510) 748-9001.

For more information on the Touro College & University System, please visit us on the web at: www.touro.edu or call (212) 463-0400.

Message from the President

Touro College is proud to publish this third annual compendium of faculty publications, highlighting research and scholarship from throughout the Touro College and University System published in 2012. Through the accomplishments detailed in this volume, Touro carries forward its research enterprise, further demonstrating the depth and synergy of Touro’s scholarly endeavors and increasing our institution’s research footprint.

Research and scholarship play pivotal roles in upholding the ideals of our intellectual tradition and are integral to Touro’s mission. The scholarship detailed herein will provide new perspectives, improve teaching, and drive future research across a range of fields - from liberal arts and sciences through the gamut of professional disciplines - further enhancing our contributions to the world of higher education and beyond.

The *Touro College & University System 2012 Faculty Publications* is an extension of the Touro Faculty Publications Database ([www.touro.edu/library](http://www.touro.edu/library)), which contains over 2,300 entries reflecting the diverse research activities and interests throughout the Touro system. This database, created and maintained by Touro library staff to promote scholarship and research, includes journal articles; books and book chapters; conference proceedings; creative works; patents; and published dissertations and translations, among other items. The database contents, which are searchable by a variety of means, serve as another tool for sharing research and offer a broader view of Touro’s intellectual achievements. As in years past, I invite you to draw upon both the publication and the database, using them to continue to build our intellectual capital.

I applaud the innovative research and meticulous work of our dedicated faculty, their commitment to their disciplines and to our institution, and anticipate that Touro’s distinguished record of scholarship will continue to grow in quality and scope each year as we strive to promote excellence in education by making research and scholarship key components of our mission.

Sincerely,

Alan Kadish, M.D.
President and CEO
Welcome to the third annual edition of Faculty Publications. The Jewish term for doing something three times is a “chazakah” which connotes an established commitment. The first edition of Faculty Publications was a success. The second edition was well received and showed an increase in contributors. With this third edition we see the continued increase in faculty support and we have had increased queries concerning entries.

We hope to make this year’s edition an established commitment on the part on the Touro College Libraries. I would like to express my gratitude to the Library staff members involved in the editing and entering of data, and the layout process. We appreciate the encouragement and support of Dr. Kadish who strongly promotes the research of the Touro College and University System staff and faculty.

This book has two parts: a listing of faculty members in alphabetical order and a listing of the publications by the different Touro College schools for ease of searchability. The 2012 book can be searched as a PDF at www.touro.edu/library.

We encourage all faculty and staff members to inform the library of their publications and scholarly accomplishments. The library will in turn share their scholarship worldwide via the Faculty Publication database and Faculty Publications book.

Bashe Simon
Director of Libraries
Acknowledgments

Since initiating the faculty publications project in 2010, I am proud to say that the Touro library has collected and organized over 2,300 bibliographic citations of your scholarly and professional contributions. These citations are made accessible via the Faculty Publications Database (available on the library’s website) to our current and future faculty, students and staff for their research and scholarship endeavours. And already some of our graduate students are using the faculty publications database to find faculty members with specific expertise for scholarly advisement on their graduate thesis or topic. Additionally, according to Google Analytics, our database is visited by users from countries as far as Denmark, South Africa and Germany which only adds to the importance of profiling and preserving the diverse academic contribution of our larger college and university system.

Naturally, as this project is growing and evolving, the number of individuals who have become involved with it is rising as well. So my appreciation is firstly extended to Senior Vice President Rabbi Krupka for his never ending support of the library, encouragement and patience. I wanted to thank Dr. Katherine Knapp, Dean of Touro College of Pharmacy in California for her ever constructive and positive feedback on the faculty publications book and database. Also, my gratitude goes to Dr. Shelley Warwick, June Simms and Tamara Trujillo, library directors of Touro COM, Touro University Nevada and Touro University California respectively for their readiness to aid us in completing faculty’s information and validating citations.

A big thank you goes to Annette Carr, our Business Librarian, who has been working tirelessly with me on this project for the last two years verifying and entering the citations we receive from all Touro campuses. This year, we were fortunate to have an excellent graduate library school intern, Jen Vogt, assisting us with organizing this growing database, cleaning the data meticulously, and transferring the 2012 citations from the database into the book for us. Liping Ren, Library Systems Manager, has kindly responded to all my database improvement requests and I appreciate her for that very much. As the final reviewer, Greg McMurray corrected and edited the manuscript for us one last time. Thank you Greg!

I am grateful to my library colleagues at Midtown, who always come to my rescue when I reach out to them. And last but definintley not least, I am especially indebted to our fabulous Director of Publications, Esther Greenfield for turning the manuscript into yet another beautiful book.

Sara Tabaei
Project Manager
