

Touro College School of Health Sciences Offers Research Course for High School Students in Bay Shore

*This Course Prepares High School Sophomores, Juniors and Seniors
To Participate in Science Fairs and Research Competitions*

*“Introduction to Research Methodology,” is a four-credit, eight-week course
(Monday-Friday) that will:*

- *stress critical thinking and strategic planning; data collection and tools*
- *teach students how to make intelligent choices of experimental models such as animals, plants or microbes*
- *offer hands-on laboratory and fieldwork*

Classes begin July 6th at the Bay Shore campus located at 1700 Union Boulevard directly across for the LIRR.
