Chair, Occupational Therapy Program  
Bay Shore Campus

Meira Orentlicher, MA, OTR/L  
Chair, Occupational Therapy Program  
Manhattan Campus

Dear Prospective Student:

Thank you for your recent inquiry concerning a career in Occupational Therapy. We would like to share information about the excellent degree opportunities offered in our Occupational Therapy and Occupational Therapy Assistant Programs. I feel confident in expressing my pleasure in the diversity of career paths that Occupational Therapy has afforded so many Touro College graduates.

Our recent changes in the Occupational Therapy Assistant (A.A.S.) Program affords the student an educational basis and confidence needed for transitioning into the upper division Occupational Therapy Program. The dual degree Bachelor of Science in Health Sciences and Master of Science in Occupational Therapy is designed to enhance the skills of occupational therapists utilizing a curriculum design that embraces several levels of study in science, psychology and clinical training.

We are enclosing the information and application packet that will help guide you through the application process. It outlines the required pre-requisite courses and semester sequences.

If we can be of any further assistance please feel free to contact Amy Borgese at (631) 665-1600 ext. 256 at our Bay Shore campus or Lydia Borges at (212) 463 -0400 ext. 671 at our Manhattan campus for OT program information or Patricia Lightsey at (212) 463-0400 ext. 258 for Occupational Therapy Assistant program information.
